

**Model Immunity Policy Recommendation:**

A reporting party or a witness who causes an investigation of sexual misconduct shall not be subject to a disciplinary sanction for a violation of the institution's student conduct policy related to the incident unless the institution determines that the report was not made in good faith or that the violation was egregious. An egregious violation shall include, but not be limited to, taking an action that places the health and safety of another person at risk.

*The Intercollegiate Sexual Harm Prevention Council approved this language as their model immunity policy recommendation on 4-7-23.*
